

## Scotland Cityscapes & Rural Getaways

### Package Description Starting at \$1,169

It's the perfect pairing: Scotland's fair cities and fantastic countryside. Choose a city - hip, historic Edinburgh; warm, welcoming Inverness or super-stylish Glasgow. With your home base in a Scottish city you'll experience it all: Scotland's traditional music scene, its mix of ancient and modern architecture, and the modern cultural Renaissance that has brought us fine dining, museums and theatrical productions.

When you stay in Scottish cities you're in the perfect position to tour. After you've walked Edinburgh's Royal Mile take a drive out to the birthplace of golf at St. Andrews. Or visit the birthplace of Scotland's poet, Robert Burns: set out from Glasgow following the River Clyde and visit castles along the way. There's history and mystery - from Stirling you can visit William Wallace Monument, and from Inverness - the country's Highland capital - you can look for the legendary Loch Ness Monster, marveling at the dramatic scenery as you go.

Touring the Scottish countryside offers a taste of Scotland's warmth and hospitality. Country villages are full of delights: beautiful hand knit sweaters and exotic local dishes. The landscape is wild and romantic - and you're never too far from home base. You can enhance your trip with a visit to London and get the best of both worlds.
